Your ticket is generated upon purchase and will contain how to win instructions, as well as game numbers or symbols, depending on the game you have selected. Play your game to find out if you have won. It's that simple!

What is a set Fast Play game?

Set Fast Play games have a set top prize, and players are able to win various prizes up to and including the top prize.

What is a progressive Fast Play game?

For progressive games, the jackpot begins at a base minimum and grows with each ticket sold statewide until the jackpot is won. Players can find estimated jackpot amounts at any Illinois Lottery retailer and on the website, IllinoisLottery.com. The jackpot amounts are updated every two minutes. The jackpot amount is listed near the top of the ticket, showing the jackpot at the time of purchase. Once the jackpot is won, it resets to the base minimum. In progressive games, a single ticket holder is awarded the entire jackpot.

What is a progressive suite Fast Play game?

Similar to progressive games, progressive suite games also have a dynamic jackpot that grows with every ticket sold statewide until it is won. After the jackpot is won, it immediately resets to the minimum jackpot amount. The difference is that a progressive suite game has one progressive jackpot with multiple wager amounts. The player decides how much to wager. The higher the wager, the higher the percentage that can be won.

Wager	Payout
\$1	10% of the Jackpot
\$5	50% of the Jackpot
\$10	100% of the Jackpot
