Such purchases may be for up to seven (7) consecutive midday Drawings, up to seven (7) consecutive evening Drawings, or for individual Drawings within the seven (7) day period. Pick 3 tickets may, at the purchaser's discretion, if the purchaser submits a completed Pick 3 Play Slip, be purchased up to six (6) days in advance, including the day of purchase. Such purchases may be for up to six (6) consecutive midday Drawings, up to six (6) consecutive evening Drawings, or for individual Drawings within the six (6) day period. (D) Pick 3 tickets purchased through Subscription Plans may not be canceled by the purchaser once entered into the Department's gaming system, except that Subscription plans for those tickets may be deleted by the Lottery and the balance of the Subscription Plan cost refunded under the following circumstances:

Cancellation shall be effective upon deletion of the Subscription Plan by the Department.

(2) When a Subscriber dies during the term of the Subscription Plan and the authorized representative of the Subscriber's estate requests, in writing, that the remaining Subscription Plan be canceled.

(E) A Pick 3 Subscription Plan, available to Subscribers for a pre-determined number of consecutive Drawings, depending upon the Subscription Plan purchased, shall be considered a Pick 3 ticket throughout its duration. **plus FIREBALL gives the player an extra number drawn at random and improves the chances of winning a prize. In the event the plus FIREBALL number is the same as one of the player's numbers, and the player's numbers match the numbers drawn for the play style, the player will be awarded the Pick 3 base prize and the plus FIREBALL prize for all plus FIREBALL Winning Combinations due to plus FIREBALL, for the player's play style and wager amount selections.						

Because Pick 3 prize payouts are fixed (not Pari-Mutuel), it may be necessary for the Lottery to restrict wagers on certain number combinations for certain Drawings in order to ensure the Department's ability to pay all prizes won. Such decisions will be made on a case-by-case basis, based upon potential liability

Section 4 Pick 4 Game

4.1 Pick 4

The Department is authorized to conduct a game known as "Pick 4". The Director may issue further directives for the conduct of Pick 4 that are consistent with this Section. Pick 4 awards prizes to Ticket Bearers matching a four-digit number, from 0000 through 9999, or a designated combination thereof, with the four-digit Pick 4 Winning Number randomly selected using a digital draw system during the scheduled Drawing(s).

4.2 Plus FIREBALL

The plus FIREBALL option is an add-on to Pick 4. Players who select the plus FIREBALL option pay, for each panel played, a cost equal to the Pick 4 base wager, thereby doubling the purchase, to get an extra number drawn at random and improve the chances of winning prizes. The choice to play plus FIREBALL applies to all panels played on the Play Slip. Players cannot apply the option to individual panels on a Play Slip. The digital draw system will select one number from zero (0) through nine (9). The number drawn (the plus FIREBALL number) may replace any one of the four (4) numbers drawn to create winning plus FIREBALL combinations (winning Pick 4 combinations). If the player's selected numbers match any of the plus FIREBALL combinations, the player wins plus FIREBALL. If the plus FIREBALL number is the same as one of the player's numbers, and the player's numbers match the numbers drawn for the player's play style, the player will be awarded the Pick 4 base prize and the plus FIREBALL prize. The plus FIREBALL prize that will be awarded will be all winning plus FIREBALL combinations, as determined by the player's play style and wager amount. For purposes of the plus FIREBALL option, wherever the term "bonus prize" is used, "bonus prize" means plus FIREBALL prize.

(D) Pick 4 tickets purchased through Subscription Plans may not be canceled by the purchaser once entered into the Department's gaming system, except that Subscription Plans for those tickets may be deleted by the Department and the balance of the Subscription Plan cost refunded under the following circumstances:

(1) (a) When the Department initiates a change to the game matrix, drawing schedule or any other element of the game, or another event occurs which changes the terms and conditions of the contract between the Subscriber and the Department or (b) if a change described in 1 (A) occurs and the Subscriber notifies the Lottery, in writing, that the new terms and conditions are not acceptable and requests termination of the Subscription Plan. (1)(a) When the Department initiates a change to the game matrix, drawing schedule or any other element of the game, or another event occurs which changes the terms and conditions of the contract between the Subscriber and the Department or (b) if a change described in 1 (a) occurs and the Subscriber notifies the Lottery, in writing, that the new terms and conditions are not acceptable and requests termination of the Subscription Plan. Cancellation shall be effective upon deletion of the Subscription Plan by the Department.

(2) When a Subscriber dies during the term of the Subscription Plan and the authorized representative of the Subscriber's estate requests, in writing,

- (1) In no event will the amount allocated to the First Prize category be less than \$100,000.
- (2) In no event will the prize paid per First Prize winning Lucky Day Lotto Panel be less than \$5,000.
- (3) If in any Lucky Day Lotto Drawing there are no Lucky Day Lotto Panels which qualify for the First Prize Category, the prize money allocated to such Prize Category shall be reallocated and added to the amount allocated for the First Prize Category in the next consecutive Lucky Day Lotto and the resultant amount shall be divided as set forth in the first paragraph of this subsection.

(K) For each Lucky Day Lotto Drawing, the Department will calculate 2.5% of the First Prize pool and maintain a running total of these amounts as a First Prize reserve pool. In the event the funds allocated to the Lucky Day Lotto First Prize category for any Drawing are insufficient to cover the advertised First Prize established by these Rules, or by the Director or his/her designee, the difference between the advertised First Prize payment and the amount available

for First Prize will be paid utilizing the 2.5% reserve. If the reserve balance is insufficient to cover the shortfall, then the remaining amount shall be paid from the sales proceeds for the Drawing for which the shortfall occurred. The reserve pool set-aside shall cease when the fund balance reaches \$150,000, and will resume when the reserve pool balance falls below \$100,000. In the event the reserve fund balance is insufficient to cover the shortfall and sales proceeds are not sufficient to pay the advertised prize, the Department shall use funds from other authorized sources.

(L) In the event the funds allocated to any Lucky Day Lotto Prize Category other than First Prize are insufficient to cover any minimum or guaranteed prize established by these Draw Game Rules or by the Director or his/her designee, the difference between the minimum or guaranteed prize payment and the amount available in the particular Prize Category will be paid from the sales proceeds for the Drawing for which the shortfall occurred.

Section 7: Mega Millions Game

7.1 Mega Millions

The Department is authorized to conduct a game known as "Mega Millions". The Director may issue further directives for the conduct of Mega Millions that are consistent with this Section. Mega Millions entitles holders of Valid Winning Tickets matching specified combinations of numbers randomly selected at regularly scheduled Drawings to prizes. The numbers are chosen from two fields. Field 1 consists of the numbers one (01) through seventy (70) and five Winning Numbers are drawn from this field. Field 2 consists of the numbers one (1) through twenty-five (25) and one Winning Number is drawn from this field. In the latter instance, this document or relevant administrative rules shall apply.

7.2 Megaplier

The Megaplier option is an add-on to the Mega Millions 5/70 + 1/25 game. Players who select the Megaplier option pay an extra \$1.00 per panel played on their Mega Millions ticket for the opportunity to multiply the set Mega Millions prizes by a number (2, 3, 4, or 5) that is randomly selected at draw time. The choice to play Megaplier applies to all games played on the ticket. Player cannot apply the option to individual panels on a ticket. The Mega Millions Grand Prize is not a set prize and is therefore NOT modified by a Megaplier purchase.

- (F) Mega Millions Winnings Pool - That portion of Mega Millions gross sales set aside for the payment of prizes. The Winnings Pool for any Mega Millions Drawing is expected to be 50% of sales but may be higher or lower based upon the number of winners at each guaranteed prize level, as well as the funding required to be contributed to the starting advertised annuitized Grand Prize of \$40 million.

7.4 Play and Tickets

- (A) Mega Millions tickets may be purchased for \$2.00, \$4.00, \$6.00, \$8.00, \$10.00, \$12.00, \$14.00, \$16.00, \$18.00 or \$20.00 per ticket, or multiples thereof if a multi-draw wager is purchased.  - (2) When a Subscriber dies during the term of the Subscription Plan and the authorized representative of the Subscriber's estate requests, in writing, that the remaining Subscription Plan be canceled.
- (D) A Mega Millions Subscription Plan, available to Subscribers for a pre-determined number of consecutive Drawings, depending upon the Subscription Plan purchased, shall be considered a Mega Millions ticket throughout its

(E)The numbers played on a Mega Millions Subscription Plan may be modified upon a Subscriber's written request in instances where the Subscription Plan has been entered in the system, but the Subscription Plan start date has not yet been reached or if the first Drawing under the Subscription Plan has not yet occurred. Once a Subscription Plan has begun, the numbers played on a Mega Millions Subscription Plan may be modified for the balance of the Subscription Plan due to a matrix change.

7.5 Odds Prize Pool Allocations, and Prizes

(A) Odds, Prize Pool allocations and Prize Payouts for Mega Millions shall be as set forth in Section 7 of "Mega Millions Official Game Rules" adopted by the Party Lotteries, provided, however, that the holder of a Mega Millions Grand Prize Valid Winning Ticket purchased in Illinois will be afforded 60 days, beginning with the day after the Drawing, in which to select the Cash Option or the Annuity Option (as defined in "Mega Millions Official Game Rules"). The selection of Cash Option or Annuity Option must be made in writing on a form provided by the Department. If no selection is made by close of business on the 60th day after the Drawing, or if the prize is not Claimed by close of business on that day, the prize will be paid under the Annuity Option. Once a selection is made by the winner or by the lapsing of the 60-day selection period, the payment option so selected is irrevocable. No Grand Prize payment will be processed until the Claimant submits an election form, or the 60-day selection period lapses, whichever shall first occur. Grand Prize winners who select the Cash Option will receive the proceeds from the sale of the

U.S. Government securities purchased to fund the Annuitized Grand Prize.

Prize liability cap. Should the total prize liability, as defined in the Mega Millions Finance and Operations Procedures, exceed the Liability Cap (as defined in the Mega Millions Finance and Operations Procedures), the second and third prizes shall be paid on a Pari-Mutuel rather than fixed prize basis, provided, however, that in no event shall the Pari-Mutuel prize be greater than the fixed prize. The amount to be used for the allocation of such Pari-Mutuel prizes and related calculations of Pari-Mutuel prize values shall be as defined in the Mega Millions Finance and Operations Procedures.

(C) The odds of winning and Prize Payouts for the Megaplier option are as follows. Megaplier odds and Prize Payouts are based upon the Mega Millions Official Game Rules. The Megaplier option does not increase the Grand Prize. The Megaplier option doubles the cost of a Mega Millions game ticket.

Match in Field 1	Match in Field 2	Prize Category and Amount	Multiplier of 2 (Relative Frequency is 2 of 15)	Multiplier of 3 (Relative Frequency is 6 of 15)	Multiplier of 4 (Relative Frequency is 3 of 15)	Multiplier of 5 (Relative Frequency is 1 of 15)

Pari-Mutuel Treatment of Megaplier Prize Categories Two (2) and Three (3). The expected payout percentage for a Mega Millions Megaplier Drawing is 50% of Mega Millions sales. However, because Mega Millions Megaplier pays out fixed prizes, the total prize liability will be above or below 50% of sales based on the number of winning plays at each prize level. If the base prizes awarded for any Mega Millions Drawing meet the Pari-Mutuel criteria of the Mega Millions liability cap, as outlined in the Mega Millions Finance and Operations Procedures, then the Megaplier prizes shall be calculated upon the same Pari-Mutuel basis. Prize Categories Two (2) and Three (3) shall be an amount equal to the Pari-Mutuel prize value multiplied by the Megaplier number selected for that Drawing.

Section 8 Powerball Game

8.1 Powerball.

The Department is authorized to conduct a game known as “Powerball”. The Director may issue further directives for the conduct of Powerball that are consistent with this Section. Powerball is conducted in accordance with the Powerball Game Rules developed by the Multi-State Lottery Association (MUSL) (Part II, Sections 26 – 34 of the Powerball Group Rules) except for instances where those rules defer to the laws, policies or rules of the Selling Lotteries. In the latter instance, this document or relevant administrative rules shall apply
